

C-WorKS: COVID-19 consequences – Want it? or Know it? Share it!

C-WorKS has been set up to support the collation and sharing of knowledge and intelligence across the system about the impacts of COVID-19 (and the response to this) on non-COVID morbidity and mortality – to cover key areas of concern but also include any positive impacts

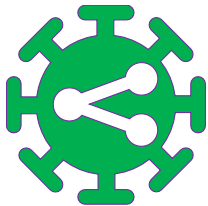

Want it?

Questions around the non-COVID impacts of COVID-19? C-WorKS provides a forum to make links with people, groups and organisations who may have the intelligence you need, or those who are able to assist in answering your questions.

Know it?

Have knowledge and intelligence resources and analysis relating to the non-COVID impacts of COVID-19? C-WorKS provides a forum for you to tell others about this!

Share it!

Providing contact details within C-WorKS will help to link people, groups and organisations together to share common areas of working, intelligence needs, resources and insights.

Please visit the dedicated [C-WorKS knowledge exchange hub](#)
