

Contrakta

Contract assurance and
system planning platform

What is Contrakta?

Contrakta is a flexible, tailored, and automated contracting platform tool for NHS healthcare contracts and non-healthcare requirements, a cutting edge solution designed to enhance contract management oversight.

A contract platform developed by the NHS for the NHS, Contrakta is a comprehensive solution dedicated to simplifying the complexities of contract management which streamlines the complete contract lifecycle, empowering customers to efficiently oversee, analyse, and optimise their contractual commitments.

For customers

- ✓ **Assured contract performance:** gain confidence in your contracts' compliance and performance, ensuring alignment with organisational objectives.
- ✓ **Enhanced oversight and control:** enjoy centralised control and visibility into your contract portfolio, mitigating risks and enhancing decision-making.
- ✓ **Financial efficiency and insights:** leverage robust reporting tools for financial analysis, enabling better resource allocation and cost-saving strategies.

For users

- ✓ **Intuitive and collaborative interface:** experience a user-friendly interface designed for ease of use, fostering collaboration among teams and stakeholders.
- ✓ **Streamlined contract mapping:** effortlessly map contracts to providers and services, facilitating seamless coordination and clarity.
- ✓ **Automated reporting and processes:** harness the power of automation to run financial reports and streamline critical processes, saving time and resources.

The contract platform eliminates time consuming administrative tasks and supports a standard approach to contract management and system planning.

Contrakta includes all the functions you would expect to see from a Contract Management System:

- Information governance management
- Assured contract performance
- Enhanced oversight and control
- Financial efficiency and insights.

Features

Contract population

Supports automation, resulting in standardised, more cost-effective way of working and reducing human effort.

Audit

Provides a clear, auditable trail for contract management to meet internal and external audit requirements.

Contract assurance

Streamlined processes – Prevent duplication, addressing variability between current approaches and multiple spreadsheets, ensuring up to date information in central point, and providing robust assurance that all compliance requirements are being met.

Benefits

Improves quality and accuracy

Avoids manual errors, provides a standard approach, greater visibility and control, making data easier to interpret to support commissioning intentions and improve the contract management process.

Enhances productivity

Contrakta minimises the amount of time staff spend on the administration of contract population and reporting.

Cost savings

Faster and lower cost at repetitive contract management tasks.
