

Digital Inclusion Training

NEW

- Are you clear on what digital inclusion really means?
- Do you know how you can help reduce digital exclusion in your role?
- Do you work in health and care and support people in your local community?

Empowering digital inclusion across North East and North Cumbria

The North East and North Cumbria ICB Digital Inclusion Team has developed a new Digital Inclusion Awareness training module designed for everyone working across health and care.

Whether you're supporting, delivering, commissioning, or managing services, this course will strengthen your understanding and confidence in addressing digital barriers.

This training is open to everyone working in health and care and is beneficial for anyone involved in supporting, delivering, commissioning, or managing services within our local communities.

You'll explore:

- What digital inclusion means in practice
- The barriers preventing people from accessing digital services
- Practical strategies to reduce digital exclusion
- How this supports equitable access to health and care services

Join now

This engaging module is packed with insight and practical learning to help you make a real difference in your role and within your communities.

Access the training via the Boost Learning Academy (account sign-up required) and search in the modules section for **Digital Inclusion Awareness Training**.
